**SHELTER
FUND**

This is the **Shelter Fund**, an initiative by photographers to aid one another through photography.

Many of us have lent our images to various fund-raising activities to help combat this pandemic. Some even continue to work on the front lines, documenting it as it happens. But with the further extension of the quarantine, and the uncertainty it brings, we now have to look inward, towards our own.

Through your purchase of our prints, you help keep us safe in our homes, able to continue and contribute, and more importantly, all of us have committed to contributing part of our individual sales to a communal fund, making sure everyone is benefitted by your purchase.

We thank you from the bottom of our hearts for your support.

Mabuhay ang Pilipinas!

All prints are original works, individually signed by the photographer.

Carefully crafted on archival photo paper and available in different sizes and prices.

**We are survivors of
immeasurable events,
Flung upon some reach
of land,
Small wet miracles
without instructions,
Only the imperative of
change.**

- REBECCA ELSON, "EVOLUTION"
